Registration/DNA **Tena Martin**

Welcome NAEBA Members,

How time flies when we are busy! The snow was still melting (at least here in Colorado) and then calves were hitting the ground. Bulls were velveted or grown out and now it is almost time for the convention. I hope everyone had a good, healthy calf crop and your bulls' antlers are better than you hoped for. Maybe everyone will have their crops in the ground by the time the convention gets here. I hear it has been quite the season for farming and the grain markets are reflecting it.

Our convention is August 1st-3rd in Topeka, Kansas this year. Our staff has put together an outstanding agenda. The seminars should be beneficial and full of information. We are expecting a large crowd and hope you all can make it. Our industry is so spread out, it isn't very often we can all get together and catch up on things. Hopefully everyone can also make some new friends. There is an online registration form for the convention and for antler entries.

There will be updates on all of the issues the Board and committees are working on. There are also some government relations issues with a few states that the industry should keep an eye on. This year's Elk Marketplace Sale is loaded with great genetics. This auction was very well received last year and I hope to see it continue to grow. I hope to see you all there.

Andy Azcarraga, *President*
 North American Elk Breeders Association

HOW DIAGNOSTICS HELP SOLVE HERD HEALTH CHALLENGES

Newport Laboratories, Inc. uses proprietary database and latest technologies to deliver customized health solutions

Conventional diagnostic tests can help to narrow down the potential causes of complex animal diseases. But new technologies are allowing diagnostic laboratories to get a broader view of what's happening within an animal, resulting in deeper insight, more accurate results, and thus highly targeted herd health solutions.

One such tool being used by Newport Laboratories, Inc. is metagenomics, which provides a complete snapshot of pathogens present in an animal by using fecal or tissue samples.

"Metagenomic sequencing lets us look at everything that's in a sample, which is really more of a casting-a-wide-net approach, compared to traditional genetic sequencing, which is like a more targeted spearfishing method," explains Wayne Chittick, head of diagnostics for Newport Laboratories.

COLLABORATION

One of the largest private diagnostic laboratories in the United States, Newport Laboratories routinely works with more than 40 state and university labs around the country. "State Veterinary diagnostic labs are very effective at what they do, and have helped to make the U.S. a global leader in animal disease diagnostics," notes Chittick.

"Much of the work we do at Newport Laboratories fits nicely with what's done at those labs," he continues. "For example, if a veterinarian is dealing with a respiratory case, he or she might send tissue samples to a state laboratory, where they would determine the specific bugs that are contributing to the problem.

"From that point, Newport Laboratories is ideally positioned to continue diagnostic testing, using the latest novel molecular technologies to further characterize isolated pathogens, compare them genetically to genes associated with important virulence factors, and recognize emerging variants," he says.

In the business for more than 20 years, Newport Laboratories maintains its own proprietary database of field-sampled isolates. "We can cross-reference field samples against our database and determine if a strain has appeared in that herd before, or if it is new," says Chittick. "A new strain could be used in the development of a custom-made vaccine."

Custom-made vaccines can help fill the gaps in disease prevention, complementing the protection herds already get from commercial vaccines, he adds. "Newport Laboratories has been at the forefront in developing diagnostics and conducting research

to create custom vaccines, and we gained access to even more resources last year when it became part of Boehringer Ingelheim."

VETERINARIANS ARE KEY

Performing quality lab work is only part of solving livestock disease issues. "Local veterinarians are really key to the whole process," says Chittick. Veterinarians see what's happening on farms, record the clinical signs and oversee sample collection. It all starts with them.

"There's a misconception out there that you can send samples to a lab and get some magical fix for disease issues, but it's really a multistage process," asserts Chittick. "We do the science, then work collaboratively with the veterinarian and other labs to interpret the results and develop the best customized solutions for each herd."

To learn more about how Newport Laboratories diagnostics and custom-made vaccines can help solve your animal health challenges, visit www.NewportLabs.com.

Antler Check-in Time Has Changed!

CHECK-IN TIME IS

THURSDAY, AUGUST 1

8 am - 5 pm

To anyone who is planning to bring antler to this year's competition, there is a NEW check-in time to be aware of this year. With the increase in antler coming to competition every year, the judges need more time to get all the antlers judged, scores verified, and results put together.

Check-in time for this year's competition is now 8 am - 5 pm on Thursday, August 1st.

If you can't arrive during the scheduled time to enter your antler, you have the option to send it with someone else. Please make sure to also send the required photo of the bull with antlers on head and a visible ear tag, copy of the Silver or Gold registration certificate, antler registration form completed and signed for each bull entered, and payment with the person bringing your antler.

2019 NAEBA Convention Seminar Descriptions

LUNCH KEY NOTE: Elk Research Foundation Project Updates — *Travis Lowe, NAEBA Executive Director.*

Over the last thirty years, our knowledge on elk health issues has grown immensely. The Elk Research Foundation, which serves as NAEBA's 501(c)(3) animal health foundation, continues work to bring advances in science that can benefit the industry. Whether it is learning about disease susceptibility or vaccination trials for Epizootic Hemorrhagic Disease (EHD), the foundation has many ongoing projects that warrant your attention and support.

SEMINAR: Parasite Prevention — *Ken Waldrup, DVM, PhD, Texas Department of State Health Services Zoonosis Control.* An essential part of herd health is protecting the animals from parasites. Dr. Ken Waldrup walks us through identifying different types of parasites, treatment and prevention methods.

SEMINAR: The Use of Anthelmintics in Elk and Other Cervids — *Ken Waldrup, DVM, PhD, Texas Department of State Health Services Zoonosis Control.*

When an elk owner notices one animal acting like they may be sick, it is a cause for concern. But what can the owner do? Wait and hope the animal improves? Is there some sort of proactive treatment that can be given by the owner? Dr. Ken Waldrup shares insight on what kind of treatment products can be used by the owner and what role the local veterinarian must play in use of antibiotics and other anthelmintics.

SEMINAR: Knowing Your Pasture & Soil —

Walter Fick, PhD, Kansas State University. Most agree elk are a product of their environment. But how much thought have you given to the type of pasture and soil in your operation? Dr. Walter Fick, a range management specialist at Kansas State University, shares basic tips on what you should know about your land.

Have you tested your soil? What should you look for? What are some of the essential ingredients we should have in our fields? Come hear all!

SEMINAR: Purity Testing Elk — *Travis Lowe, NAEBA Executive Director.* NAEBA has provided members detailed instructions from the purity lab on the protocol to ensure they receive quality samples. This seminar will review the registration changes and best practices protocol, which is a key component of NAEBA's breed registry.

SEMINAR: Elk Operation Business Forecasting — *TBD.* Every year NAEBA works to provide members with tools to operate financially sound operations. Last year, NAEBA unveiled business operation plans. This summer, we will review these best practices and hear feedback on what members have learned over the last year. This is a must-see for any current or prospective elk owner!

PANEL DISCUSSION: Low Stress Elk Handling — *Brian Wagner, Black Velvet Elk Ranch; Eric Mohlman, Mohlman Elk Farm; Bill Mayes, Mayes Elk Farm.*

Handling elk is one of the most serious events that take place on the ranch. Whether it is routine herd testing, herd rotation or transporting animals, ensuring your safety and the animals' safety is paramount. High stress and/or injury to animals result in economic loss. This panel features three owners with unique experiences sharing tips on best practices. One guest has transported thousands of elk across the United States, one guest works their herd with a chute, raceway and tub system, while another guest almost routinely handles their herd with chemical immobilization. A lot of great information will come through this panel dialog!

SEMINAR: Getting Started in Elk Ranching —

Mark Luedtke, Luckyland Elk. Have you recently made the decision to start an elk ranch? What is the next step? Our convention will offer this seminar to give helpful tips to those moving forward in starting an elk ranch. From designing pasture layouts to purchasing animals, you will always save money if you do it right the first time. Plan to attend and bring your notepad!

SEMINAR: NAEBA Registration & DNA 101 —

Travis Lowe, NAEBA Executive Director. On March 1, several changes to improve registry services and expectations for the membership took effect. Additionally, as breeding stock sales continue to grow and more bulls are moving through the trophy bull market, many producers have found they are behind on their registrations and purity needed to move their animals. Travis Lowe will explain different registration scenarios, explain how to properly fill out paperwork forms and answer your registration and DNA questions.

SEMINAR: Best Practices of Velvet Cutting —

Perry Olson, NAEBA Velvet Antler Judge. Perry Olson will lead discussion on harvesting velvet, including the correct time to cut and utilizing best management practices to ensure humane treatment of bulls during velveting. This is truly an art and there is always more to learn!

SEMINAR: Advanced Hard Antler Scoring —

Tom Watts, NAEBA Senior Hard Antler Judge. This seminar is designed to build on the basic hard antler scoring techniques for elk trophy bulls. Because of genetic evolution, it is common to see elk bulls with very unique antlers that are often bigger than elk in the wild. A seasoned NAEBA Hard Antler Judge will show examples of scoring bulls with drop tines, uncommon tine placement and antler sets that are outside the norm of your basic 6x6 or 7x7 bull. Whether you are new or experienced in scoring antler, this is a great way to build and/or brush up on your scoring skills. This class is also a prerequisite for anyone interested in becoming a NAEBA Hard Antler Judge.

2019 NAEBA Membership Meeting Agenda

FRIDAY, AUGUST 2, 2019

9:00 — 10:00 a.m. Central Time

1. Call Meeting to Order *NAEBA President Andy Azcarraga*
2. Introduction of NAEBA Board of Directors *Andy Azcarraga*
3. Introduction of NAEBA Staff *Executive Director Travis Lowe*
4. Overview of Convention Schedule *Travis Lowe*
5. Approve Minutes from 2018 Annual Meeting *Andy Azcarraga*
6. Treasury Report *Treasurer Rick Ewert*
7. Explanation of How NAEBA Policy is Derived *Travis Lowe*
8. Overview of NAEBA Committees *Travis Lowe*
9. Overview of Past Year's Activities *Travis Lowe*
10. Ongoing Activities/Goals *Travis Lowe*
11. NAEBA's Connected Organizations:
 - a. Elk Research Foundation (ERF)
 - b. American Elk Products Foundation (AEPF)
 - c. Canadian Elk Products Foundation (CEPF)
 - d. NAEBAPAC
12. NAEBA Board of Director Elections Report *Nominations Chairman Bill Mayes*
 - a. Motion to Accept Nominations Report
 - b. Announce Election Results
13. Announce Booth Exhibitors *Andy Azcarraga*
14. Breakout for Regional Meetings
Central, Northern, Northeast, North Central, Southern and Western

Convention Sponsors

NAEBA introduced a new sponsorship format for this year's event which was designed to simplify the solicitation process and give more exposure to sponsors. The new concept was strongly supported! NAEBA sincerely thanks everyone who stepped up to sponsor activities for this year's convention.

SHOCK EFFECT

PRODUCTS FOR ALL YOUR HERD NEEDS

Antler Maximizer

- Promotes increased antler growth, food utilization and body condition
- Microencapsulated probiotic for more efficient absorption
- Contains beneficial bacteria, amino acids, enzymes, vitamins, minerals and trace elements
- Available in both powder & pellet

Sea-Cal Calcium

- Pharmaceutical grade coral calcium for high absorption
- Increases antler density & reduces breakage
- Helps fortify and replace lost skeletal minerals and calcium during antler growth
- Can be fed year round to entire herd
- Available in both powder and pellet

Equalizer

- All the benefits of Antler Maximizer without the antler growth ingredients
- Allows you to focus on deer health without promoting additional antler growth
- Microencapsulated probiotic formula
- Designed to promote body condition, immune system support and food utilization
- Can be fed year-round to bucks, does and fawns of all ages
- Promotes better health and disease resistance
- Effective in deer, sheep, goats, and exotics (both cervid and non-cervid)

Buck Chill

- Natural supplement that addresses problematic behavior to help avoid antler damage, injuries and/or mortalities associated with breeding, handling and movement
- Provides key nutrients that promote a positive mental and physical response
- Use during transport, herd testing, AI or any other times of stress, anxiety and or risk of injury
- Can be fed to both bucks and does
- Tested and proven effective
- Effective on Whitetail, Red Deer, Elk and other exotics

Fawn Gel

- Helps support the immune system to provide healthy start to young fawns
- Promotes a healthy digestive system and maintains a balanced pH level by supporting beneficial bacteria levels in the gut
- Each tube contains (3), five gram applications
- Available in individual tubes and 25 tube cases

Fawn Stabilizer

- Microencapsulated probiotic formula designed for use in milk replacer and/or waterer system
- Designed to help maintain beneficial bacteria levels and fawn's overall body condition and immune system
- Supports rumen health by promoting a diverse microbial population capable of more efficiently utilizing carbohydrates, proteins and fatty acids
- One pound container contains approximately 454 servings
- Feed fawns 1 scoop mixed in bottle twice daily

Colostrum Gel

- Provides newborn fawns essential colostrum to get their bodies digestive and immune systems up and running
- Especially formulated for cervids and most effective when administered within the first 12-24 hours after birth
- Each tube contains (3), five gram applications
- Available in individual tubes and 25 tube cases

Electrolyte Gel

- Formulated to promote an energy boost during times of weakness, stress, nutrient depletion and fluid loss due to diarrhea or extreme weather conditions
- This product can be used on deer of all ages.
- Each tube contains 30mg (5 grams per fawn, full tube for adults)

NAEBA PHOTO CONTEST

Bring your elk pictures to the convention!

The North American Elk Breeders Association is once again sponsoring a photo contest during the annual convention. This annual contest has four categories with something for everyone. A plaque will be given to the picture chosen Best of Show. There is no limit on number of entries per person. Certificates will be given to the top three in each category and will be mailed after the convention.

PHOTO CONTEST CATEGORIES:

- | | |
|--------------------|-------------------|
| 1. Bull | 3. Humor & Action |
| 2. Cow and/or Calf | 4. Miscellaneous |

PHOTO CONTEST DETAILS:

- Enter your photos at the NAEBA Registration Desk. Photos will be displayed as soon as they are submitted. Contest ends at 3:45 pm on Saturday August 3rd.
- Photos entered into the contest can be any size up to 8x10. Please bring picture(s) with you. The registration desk does not have a color copier to print a copy of your picture.
- Submitted photos may be used in future NAEBA publications. They will not be returned unless specifically requested.

NAEBA MEAT CONTEST

Bring your elk meat snack products the convention!

Do you specialize in selling elk meat snack products? The annual elk meat contest is one of the most popular events at the convention! NAEBA will once again be hosting this event on Saturday August 3rd, during the Saturday afternoon break. Bring your products to share with attendees and prepare your taste buds for a great elk meat sampling experience. You won't want to miss it! A plaque will be awarded to the top winner in each category and also to the product deemed Best of Show.

MEAT CONTEST CATEGORIES:

- | | |
|---------------------|----------------|
| 1. Elk Snack Sticks | 3. Elk Sausage |
| 2. Elk Deli Meat | 4. Elk Jerky |

MEAT CONTEST DETAILS:

- All entries are asked to provide 1 1/2—2 lbs. of product to be used for taste test sampling by attendees during the Saturday afternoon break.
- Enter product for the competition at the NAEBA Registration Desk by 10am on Saturday August 3rd. This will allow time for staff and volunteers to prepare samples in time for the afternoon break.
- Participants are welcome to bring extra product to auction off at the NAEBA Semen Auction later that evening, but only federally inspected meat will be able to go on the auction.

RACK PLUS™ FOR OUTSTANDING RESULTS

OUTSTANDING PERFORMANCE IS THE HALLMARK OF ADM'S DEER AND ELK FEEDING PROGRAM.

The Rack Plus program incorporates the latest technical advances in cervid nutrition with ADM's time and field-proven formulation and feed technology techniques to deliver the right balance of protein, energy, vitamins, and minerals that enable deer and elk to reach their full genetic potential.

DEER & ELK 18-4 (81686AAA) AND DEER & ELK 18-5 BREEDER (81692AAA)

- Complete, pelleted feeds formulated specifically for deer and elk
- Provide multiple protein sources, stabilized rice bran, highly digestible energy and fiber sources, CitiStim®, and direct fed microbial
- Both products provide 18% protein and no more than 14% fiber; 18-4 provides 4% fat and 18-5 provides 5% fat
- 18-5 Breeder: Formulated specifically for the breeding herd; also provides natural-source vitamin E, B-complex vitamins, selenium yeast, and Antler D™*

CitiStim®, an ADM proprietary feed ingredient, is a proven, truly unique, whole-cell, inactivated yeast product that may help the animal strengthen its defense against health challenges by supporting and optimizing gut function, gut integrity, and body defense responses.

*Antler D is a trademark of Head Gear LLC.

NAEBA Semen Benefit Auction Terms and Conditions

All animal information included in this catalog was provided by the consignors. All guarantees are between buyer and seller. Buyer understands they are buying based upon their own opinion and inspection. NAEBA makes no guarantees or warranties for any items in this auction. **Shipping must be requested by buyer within 60 days of the sale.**

Arrangements must be made directly between buyer and consignor for shipment of semen. All expenses for shipping of semen are to be paid by buyer. Cash, check, or credit card will be accepted for payment. All consignments are to be paid for in full upon completion of the auction, no exceptions will be allowed. To arrange phone bidding or to leave a proxy bid, call Travis Lowe at 469-774-4580 to pre-register no later than July 21, 2019. Late registration before the sale can be made by calling at 660-676-7685. Phone bidding can be arranged for specific lots and you will be called when the lot comes up. For questions, please call Travis Lowe at 469-774-4580.

All semen in this auction has been 100% donated to NAEBA, unless otherwise noted.

All lots have two straws donated, the high bidder must purchase both straws. Thank You to all donors and buyers for your continued support of NAEBA and its foundations!

Reg #: A41144

Lot A 2 Straws: Darth Vader

Consignor: Keeton Elk Farm

Frank Keeton Roachdale, IN 317-286-8019

Sire: Cracker Jack Dam: W-721 (Orr Lake Elk's Samurai)

CWD Resistant LM Genotype!

575" at 6, damaged, (unofficial); 580 2/8" at 5 scored at NADeFA (NAEBA unofficial).

Sire is Cracker Jack, 640 6/8" SCI in Record Book (NAEBA unofficial).

Semen is stored with Martin Wenkoff in Canada and at Rocky Mountain Sires in the U.S. Semen will be available in both the U.S. and Canada for the 2019 breeding season.

Reg #: C5856

Lot B 2 Straws: Silver Star

Consignor: Regal Point Elk Ranch

Eric & Dale Robinson Georgian Bluffs, ON 519-373-7574

Sire: Silvertine Dam: RPE 704 (RSE Superstar)

Big clean typical 9x8 Six-Year-Old! 510" with 63" and 61" beams (unofficial). If the market changes, the demand for big typicals will stay strong. Long beams, good clean tine placement. Silver Star is a solid choice for your future genetics. Silver Star is a son of Silvertine and a Superstar/Samurai cow that is the best cow on Regal Point Elk Farm. This cow also has sons that scored 555" at 6 (unofficial) and velveted 25.6@2 (unofficial).

Semen is available in the U.S. and Canada for the 2019 breeding season.

Reg #: A41533

Lot C 2 Straws: TOE Wichita

Consignor: Twin Oaks Elk Farm

Greg & Floy Kenyon Guthrie Center, IA 641-747-3776

Sire: Styx Dam: B124

TOE Wichita! Son of Styx!

3-year-old 460 typical (unofficial).

2-year-old velvet 17.41 lb. (unofficial).

This bull is one of the largest typical three-year-old bulls you'll ever see!

Semen collected by Dr. Glen Zearth and is available in the U.S. for the 2019 breeding season.

Reg #: A40307

Lot D 2 Straws: Frisia Daniel 176B

Consignor: Mayes Elk Farm

Bill & Susan Mayes Lentner, MO 660-676-7685

Sire: Frisia Leonard Dam: Frisia Dena (Dynasty)

Frisia Daniel 176B genotype "LL". A great typical frame bull built by the late John Kooistra, one of the industry's pioneers of giant typical genetics. This bull has a great look with a ton of proven production. Top quality semen stored at GLSS in Michigan for easy shipment.

Semen is available in the U.S. for the 2019 season.

Lot E 2 Straws: 353B Knobs

Consignor: Valley Elk Farms

Tom Nevins Plainwell, MI 269-720-5948

Sire: Styx Dam: VAL 264 (Legend)

Reg #: A43250

Knobs scored 414 (unofficial) at 2 yrs. old, was the Non-Typical International champion with a score of 524 at 3 yrs. old, and at 4 yrs. old scored 600+ (on his head, unofficial). His first sons, which are spikes this year, are all showing great promise (see ad in this magazine).

The dam's side is a cross of Awesome 121 and Legend, two International competition champions.

Semen was drawn by Dr. Martin Wenkoff and these are the only two straws of 353B "Knobs" that will be released in 2019. They will be available in the U.S. for the 2019 breeding season.

Lot F 2 Straws: LWA Bucci

Consignor: Spring Coulee Elk Farm

Bill & Karen Knutson Holmen, WI 608-526-4477

Sire: X-Ray Dam: LWA Sophia (KEF Cracker Jack)

Reg #: A41145

486" at 5 (unofficial); 481 7/8" at 4 (unofficial); 464" at 3 (unofficial).

Son out of reputable bull X-Ray!

Bucci's sire, X-Ray, was officially scored at 496" at the 2010 NAEBA International Antler Competition after naturally shedding. The maternal grandsire Cracker Jack has passed on his genetics on multiple farms.

Semen is available in the U.S. for the 2019 season.

Reg #: A43405

Lot G 2 Straws: AEB Amber Peacemaker

Consignor: Amber Elk Ranch

Bob Northrup Ludington, MI 231-357-9987

Sire: VER 121S Blue Dam: Cast Iron Girl (Iron Man Blue 224)

Amber Peacemaker scored 463" typical at 3 (unofficial) and is the biggest typical 3-year-old that I know of. He is a combination of several powerhouse bloodlines going back to Boulder Valley Elk Ranch, Wild-n-Wooly Acres and Patterson Elk Ranch (Iron Bull) genetics. His first calves are hitting the ground in 2019.

If you're looking to add massive, typical style antler to your bull line-up, this is the bull for you! Other than this sale, semen will not be offered this year. These straws will be available in the U.S. for the 2019 breeding season.

Reg #: A40004

Lot H 2 Straws: EMF Stryker

Consignor: V-Tex Elk Ranch

James & Yvonne Veitenheimer Windthorst, TX 940-237-6353

Neal & Synda Melton Windthorst, TX 832-562-9288

Sire: Styx Dam: EUN 702T (Cassius P4)

2018 score at 6 years: 652" with a 66" spread (unofficial).

1st place 2018 NAEBA 5 yr old Non-Typical Class Winner.

1st Place 2017 NAEBA 4 yr old Non-Typical Class Winner.

1st place 2016 NAEBA 3 yr old Non-Typical Class Winner.

He is considerably larger this year. Stryker is also showing his producing capabilities. At the 2018 NAEBA Competition, his 2 year old son placed FIRST in the velvet class with 22.0 lbs and his 1 year old son placed first in the spiker hard antler class scoring 302 1/8". Semen was drawn by Dr. Martin Wenkoff and is available in the U.S. for the 2019 breeding season.

Reg #: A39421

Lot I 2 Straws: Splendor's Ray 071X

Consignor: Splendor Ridge Elk Farm

Lance & Brenda Hartkopf Howard Lake, MN 320-543-3664

Sire: X-RAY Dam: SPR 708T (Clearstone Stalwart)

Splendor's Ray is an X-Ray son who carries the great look and style of his sire. While not a typical style bull, he has long tines and a clean, symmetrical look with a 7x7 mainframe.

524" official at seven with actual 52" spread (unofficial). He's passing on as three of six 2018 three-year-old sons scored into the 400"s (unofficial). Splendor's Ray has a big stylish body and a calm disposition.

Semen is available in the U.S. for the 2019 season.

Reg #: A40344

Lot J 2 Straws: Frisia Dan

Consignor: Plateau Valley Elk Ranch

Andy & Julie Azcarraga Collbran, CO 970-253-2453

Sire: Styx Dam: Frisia Dancer (Legend)

Dan is a bull that combines early maturing production with one of the best cow families in the elk industry. Bred by John Kooistra, the bull now resides in Colorado.

Dan scored 410" at two-years-old in the NAEBA International Antler Competition! The bull would have harvested tremendous velvet.

Dan is out of the Golden Dawn cow family. His mother is also the dam of Frisia Rocket (456"@4). His maternal grandmother is Golden Dawn herself, who is the dam of Awesome 121 and Frisia Dynasty, both NAEBA International Champions.

Semen was collected by Dr. Zearth and is available in the U.S. for 2019. There is limited semen available.

Leo

Reg #: A39258

2019 NAEBA ELK MARKETPLACE SALE

August 3, 2019 — 8:15 pm Central Time
Capitol Plaza Hotel — Topeka, KS

Full Sale Catalog Will Be Available Online at www.naelk.org!

Phone Bidding Available! Dial 660-676-7685 before the sale.

All Sales Sold in American Dollars

Auctioneer Services Donated by Mayes Auction Service

GENERAL SALE INFORMATION

For-Profit Semen Consignments:

\$100 consignment fee per lot. The \$100 fee will go towards NAEBA's 8% commission. All sellers agree that an 8% commission on the final sale price will be deducted from the final payment they receive from NAEBA.

Live Animal Consignments:

There is \$250 per live animal consignment fee with no commission. For example, the consignment fee for one trophy bull is \$250. A consignment fee for a package of three trophy bulls sold in one lot will be \$750.

Buyers will pay NAEBA in full at the close of the auction, unless the seller states other terms. Payments will be accepted by cash, check or credit card.

Sellers will receive full payment within 15 business days after the sale date.

Any terms between seller and buyer for payment schedule is strictly between those two parties and NAEBA makes no guarantees of payment if full payment is not required at sale time.

All sales are final. All elk are sold "AS IS". There is no guarantee of any kind as to soundness, condition or quality of any elk sold in this sale, except in the case where the owner makes a specific guarantee. In such case the guarantee is strictly by the owner and not by sales management.

All buyers must register for the sale and agree to the terms of sale. Upon which time, they will receive a bidding number.

Sale management, auctioneers, NAEBA and NAEBA representatives act as agents for the sellers, but assume no liability for either buyer or seller. Any representations made by the sales management are on behalf of the seller.

Each lot of animal(s) will be sold to the highest bidder. The

auctioneer reserves the right to accept or reject any bid and in all cases of dispute the auctioneer's decision is final.

Every effort has been made to ensure correctness of the catalogue, however, owners, auctioneers and agents will assume no responsibility for errors or omissions and assume no liability as to any statements, either written or verbal, regarding any elk sold other than the information was given "in good faith".

Any known correction will be made at sale time and will take precedence over the catalogue. Buyers are encouraged to contact consignors directly for full details of animals.

The Seller agrees to board animals over 1 year of age for 30 days after the sale and calves for 90 days after the sale. After the above time length, boarding is negotiable between buyer and seller and NAEBA is not responsible for any additional boarding agreements between buyer and seller.

All arrangements for the physical transfer of the animal(s), their care, responsibility of and liability for them is to be arranged privately between the buyer and the seller. We recommend the buyer purchase insurance. All transportation costs are the responsibility of the buyer, unless other arrangements are made between the buyer and the seller.

All NAEBA registration transfers are the responsibility of the seller and are to be completed within 30 days after the sale.

All buyers agree to be bound by the above terms as well as any other conditions announced by the auctioneer. Each buyer agrees to be responsible for all charges to them. If any check given to NAEBA is not honored for any reason, it is understood that such amounts will remain outstanding and no transfer of ownership will occur until full acceptable payment is made. The buyer issuing the check or credit card may face civil and/or criminal liability.

OPEN FOR TROPHY BULL CONSIGNMENTS – DUE JULY 22ND!

Live Animal Consignments:

- There is \$250 per live animal consignment fee with no commission. For example, the consignment fee for one trophy bull is \$250. A consignment fee for a package of three trophy bulls sold in one lot is \$750.

Trophy Stock:

- Scores will be listed as unofficial and should be in a range of 10 inches. NAEBA does not guarantee any score, whatsoever. Any disputes are between buyer and seller.
- Trophy bulls may be consigned until July 22, 2019.

Antler Judging Room

DESIGNATED ROOM

At the International Antler Competition event, a separate area shall be designated as the Antler Judging Room. The room shall be identified and marked with such name and only open to visitors during the announced antler viewing time. No seminars or meetings may take place in the Antler Judging Room. During the antler check in process, participants will check in and leave antler and not be able to see other antler.

AUTHORIZED PERSONNEL

Only the following persons are admitted in the Antler Judging Room: Approved hard antler and velvet judges and scribes for that specific year, statistician, Competition Committee Chairman, Event Coordinator, Executive Director as well as NAEBA staff personnel. Such judges, scribes and statistician personnel shall be named by the Competition Committee Chairman, as approved by the President, for the specific International Antler Competition, Northern Region Score Center, or any other NAEBA sanctioned scoring event. The authorized personnel shall be given an additional badge to wear by the Competition Committee Chairman to allow entrance in the room. No other personnel, including membership or members of the NAEBA Board of Directors, shall be authorized to enter the room.
